Danish Bioinformatics

ELIXIR Denmark is organising the first Annual Danish Bioinformatics Conference, which offers the scientific community a unique opportunity to form an overview of what is happening within the fields of Protein-, RNA-, and DNA Bioinformatics, and Medical Genomics, Population Genetics, and Systems Biology, in Denmark.

ELIXIR Denmark is one of the nodes of ELIXIR, which is a European infrastructure for biological information that supports life science research and its translation to medicine, agriculture, bio-industries, and society. The Danish node is established in a partnership between *Danish Universities*.
